

The focus of the Men's Development Center is to lead men to a point of personal surrender to Jesus Christ. Our on-site programs are designed to help the residents achieve greater self-determination and increase their potential for maintaining independent living. There are opportunities to remain in our program for 90 days, and possibly up to 12 months. Our facility provides case management, meals, clothing and other services for all residents in a structured, supportive environment.

Men's DEVELOPMENT CENTER

Our Development Programs:

Men at Work: 90 days to 1 year focusing on life change and job preparation enabling a man to re-enter the work force and transition into independent living.

Motivational Program: 90 days to 1 year to assist older men as well as men with special needs such as chronic mental or physical health concerns to obtain independent living.

Veterans in Progress (V.I.P.): 90 days to one-year path designed to focus on medical, mental health and substance abuse issues adversely affecting the lives of numerous military veterans.

Spiritual Recovery Program: The Spiritual Recovery Program is a nine-month Christian discipleship—12-step program, based on the authority of the Bible as the Word of God.

Transitional Living: A one-year program that follows graduation from the Spiritual Recovery Program. Men are expected to

remain gainfully employed and practice the virtues of thrift and saving.

Cornerstone: Cornerstone is a Christ-centered option for men facing special obstacles requiring long-term nurture and resources.
